A small but pretty wedding was that of Mrs. Anna Garrison, daughter of Mrs. Anna Garrison and the late Mr. Garrison, of New Orleans and Lieutenant-Colonel Louis F. Williams of Washington, D. The bride, given in marriage by her brother Mr. James Garrison of Rosedale, entered the church to the strains of the Bridal chorus from Lohengrin played by Mrs. J. B. Goldman. ## Local Citizen Writes Governor Davis About License Bill

We are publishing herewith a letter written by Mr. J. Lewis Henderson, to Governor Jimmie H. Davis, of Louisiana, relative to pending legislation effecting the licensing of Mississippi fishermen by the Louisiana Legislature.

Mr. Henderson, now a resident of Bay St. Louis, was formerly editor of the Weekly Star at Starkville, Miss., and of the Scott County Times, at Forrest, Miss. He was more recently Regional Information Advisor of the Farm Security Administration at Little Rock, Ark. Having been awarded a Fellowship by the Rosenwald Foundation, he came to Bay St. Louis, to complete the writing of a book.

Mr. Henderson's letter follows:  
706 Hancock St.  
Bay St. Louis, Miss.  
June 8, 1946

His Excellency  
Hon. Jimmie H. Davis  
Governor of Louisiana  
Baton Rouge, La.

Dear Governor Davis:  
If the bill requiring annual fees of \$2500 for out-of-state fishermen passes the Louisiana Legislature it will effectively destroy the fishing rights of Mississippi fishermen in Louisiana waters. You might as well set the fee at a million dollars, since the effect would be the same.

This is a serious thing because the economic livelihood of hundreds of Mississippi citizens are at stake.

The water, sunshine, fresh air, and other natural resources properly belong to all the people irrespective of state boundaries. God did not intend that selfish groups in any state or area should play dog-in-the-man and restrict free access to these elements for the exclusive benefit of themselves.

Less state-line barriers are needed, not more. If the world is at peace this truth must be recognized.

It would be no more unreasonable for Mississippi, in retaliation and in self-defense, to begin placing a heavy tax on every Louisiana vehicle that crosses the line into Mississippi. Let's not start that kind of tit-for-tat. It's not even smart, nor civilized.

More trade barriers between states and nations result in more hardships and cause wars. History offers abundant proof of this. I can't believe that the good citizens of Louisiana feel that way about their Mississippi neighbors.

Sincerely yours,  
J. LEWIS HENDERSON.

## Chamber of Commerce Meeting Held Last Thursday Evening

The Hancock County Chamber of Commerce held their regular monthly meeting last Thursday evening. It was quite an interesting meeting. The membership were given a very interesting discourse of the Tung Nut by Mr. John Watts, Editor of the Tung World. He cited the development of the Tung Industry in this country, and what it has meant to this section.

Mr. Harry Clark, industrial representative of the Mississippi Power Company, said that we should be congratulated for the many improvements that have taken place recently, in our section, and that in the near future a timber cruise would be made in Hancock County, to survey the available pulp wood in this and adjoining counties with a view of locating a pulp wood mill.

Other guests of the Chamber of Commerce, were Dr. Albert Solow, Chief of the Medical Staff of the Merchant Marine Cadet Basic School, Mr. F. J. McCoy of the Clermont Harbor Civic Club, Mrs. John Watts, Mrs. Wilma Wagner, and Mr. and Mrs. William Argis.

One of the main topics of discussion among the membership was the vote taken upon the issuance of \$50,000 of bonds by the City of Bay St. Louis for street improvements. The Chamber of Commerce having sent to the membership who were qualified electors in the City of Bay St. Louis, a ballot with the request that they vote their expressions, for or against the bond issue. Eighty eight ballots were mailed out, and 52 were returned. The vote stood 42 against the bond issue and 10 for.

Following the meeting Mr. and Mrs. Watts entertained the group at an informal party, serving cake and punch.

## Injured In Automobile Accident

Five persons were injured, three seriously, when an automobile in which they were riding skidded and turned over at 4:30 Sunday afternoon at Second and North Beach.

Fayard and Choina were later removed to the Touro Infirmary and at this time little hope is held out for Fayard. Miss Nelson was retained at the hospital here but she and Leo Choina are reported out of danger.

It was said that the accident was unavoidable because the steering gear gave way and a tire blew out.

## CATHOLIC LAYMEN'S RETREAT HELD AT HOLY CROSS VILLA

A Catholic Laymen's Retreat was held at Holy Cross Villa, Waveland, under the auspices of the D'Iberville General Assembly, Fourth Degree Knights of Columbus. This was the first Retreat ever held here; it began on Friday June 7 and ended Monday June 10.

Through the efforts of the Rev. M. J. Costello, pastor of St. Claire's Church, Waveland and also Faithful Friar of the Fourth Degree Assembly and Brother Vincent of Holy Cross College this Retreat was organized and with the assistance of the Retreat Master, Rev. E. Goss, S. J., was brought to a happy conclusion. The choir, for the occasion, was under the direction of Mrs. Ed. C. Carrere, with Mrs. V. E. Weber at the organ.

This retreat was confined principally to the Coast Councils, but so successful was it, and so enthusiastic were those attending that they unanimously decided to hold another retreat next year, open to all men, in order that an opportunity might be offered them not only for a "spiritual" check up on their lives, but also to enjoy the "material" advantages of the Gulf Coast.

The surroundings here for a Retreat were ideal; the deep blue waters of the Gulf, the quiet solitude of the villa with its shady woods and green walks were so inspiring and restful, that some who attended this retreat are already making arrangements so that their vacation next year may correspond to the time of the retreat.

The Fourth Degree D'Iberville General Assembly are wholeheartedly devoted to the objects of this retreat, and trust that although very successful this year still higher standards may be reached at the next retreat and that even a greater number may avail themselves of this "spiritual tonic" in 1947.

## Fathers Day to be Observed To Help Old Men's Home

Sunday, June 16 is Fathers Day and the request has gone out that every man in the state (and that means Bay St. Louis and Hancock County) give a dollar as a Fathers Day Gift to the Old Men's Home at Jackson. Will you give your dollar to help the building of a comfortable home for these homeless men? No, this is not another drive. This is a suggestion and if you believe that these old men need a home, that they should be made comfortable mail your dollar to the Old Men's Home at Jackson, Miss. That is all and that is so easy. Think this over for some day you will be an old man and will be in a position to appreciate being remembered on Fathers Day.

## Beginners In Swimming Class To Finish

The first beginners class in swimming at Breath's Beach will finish with a test today. About forty out of the original enrollment of 67 children have stuck with the class through low tides and muddy water, high tides and the cold water.

The teaching staff of the last three weeks has consisted of Misses Helen and Gloria Bieh, Mrs. Paul Lacoste, Mrs. Theodore Thomas, Mrs. J. B. Goldman and beginning on Wednesday of this week Mrs. Bob Torgerson.

Next week there will be an intermediate class taught by Mrs. L. A. Rogers and a new beginners class as soon as these are finished the instructors will begin classes for junior and senior life saving.

The Water Safety committees wish to thank William R. Pitcairn, Richard helped them, in constructing the small platform in shallow water for the beginners.

## Gulf Coast Supreme Ice Cream Store in Waveland Owned and Operated By Paul Patterson

In the Chamber of Commerce Activities column of last weeks Echo mention was made of the Leveau wholesale and retail ice cream store in Waveland. This was an error. There is no Leveau's Ice Cream Store in Waveland, it is the Gulf Coast Supreme Ice Cream Store, and is owned and operated by Mr. Paul Patterson, who leases the premises from Mr. Leveau.

## Precautions Against Polio

Mrs. M. A. Gilmore, county chairman Infantile Paralysis Foundation, is releasing the following which appeared in a recent Florida paper, relative to handling cases of Polio. Under the caption "Precautions" the paper says "While the actual cause of this disease and the manner of transmittal appear to remain as yet secrets which medical men are ceaselessly trying to solve, there are several suggestions advocated by the national foundation for preventing contraction or spreading of the dreaded illness.

Families are advised not to use water contaminated with sewerage for drinking, swimming or washing dishes; to avoid exhaustion and sudden chilling as from a plunge into cold water on a hot day; to wash, peel or scrape all vegetables and fruit.

The foundation also advises keeping the home in good condition and destroying all breeding places of flies and mosquitoes. This is emphasized here by Mayor James Aspell in the clean up campaign now on in Panama City.

Other precautions are not to let children place unclean objects in their mouths and to make sure that they wash their hands before eating; to avoid unnecessary contacts with large groups of children during summer and fall months and to postpone operations for tonsils and adenoids until after the Polio season which usually runs from June through September.

This year Polio figures began rising in January with Florida, California and Washington State being hit the hardest.

Mrs. Gilmore requests that if any one knows of a case or suspected case anywhere that they will immediately notify her or any member of her staff, J. B. Burrow, Merchants Bank & Trust Co., Mrs. Theodore Tudury or Mrs. E. N. Spence.

## Tung World Magazine Published in Bay St. Louis

The Tung World Magazine, a monthly review of American and world tung news, and the only magazine that is devoted exclusively to the tung industry is to be published from Bay St. Louis.

Thes Tung World is edited by Mr. John Watts, and is published by the Tung World Publishing Company. The location of the Tung World offices in Bay St. Louis is best explained by Mr. Watts in the May issue of his magazine as follows:

TUNG WORLD, like every other new enterprise of these turbulent, post war days, has had its housing difficulties. Thanks to the kindly interest and generous cooperation of A. E. Voight, president of the Hancock County, Miss., Chamber of Commerce, our headquarters are now located in Bay St. Louis, Hancock's county seat.

Temporarily located in Poplarville, Miss., in quarters very rapidly outgrown, we began casting about some weeks ago in various corners of the tung belt for new offices—a big order indeed, in these housing-short times.

Tung World is deeply grateful to Mr. Voight, not only for having come to our rescue, but also for the encouraging gratification Tung World takes in the C. of C. Prexy's anxiety to have us located in his county. In fact, so desirous was he that the tung industry's organ be published from Bay St. Louis, that he provided us with quarters in a section of the brand new wing of his own Gulf Chevrolet concern, where we will be housed until we move to permanent offices.

We are indeed happy to see this publication located in Bay St. Louis. It will enable us to receive much publicity, particularly throughout the section of the Tung Belt. Its location in our midst can be credited to our energetic President of the Chamber of Commerce Mr. Al Voight.

Mr. Watts is married to a Bay St. Louis girl, the former Miss Edith Ballard, daughter of Mr. and Mrs. Marshall Ballard, Sr.

## Little Theatre Announcements

All members of the Little Theater Guild, both active and sustaining, are reminded that at eight o'clock on the night of Friday, June 14th, there will be a most important meeting in the Carroll Avenue Playhouse. Every member is urged to attend and to be prepared to discuss and vote upon several matters of general importance to the organization.

The fourth Little Theater production, SUN UP, a three-act drama by Lula Vollmer, is now under rehearsal and will be presented on Monday and Tuesday night, June 24th and 25th. The play is being directed by Mrs. Mary Dodge, who for years was a professional director of Little Theater plays in other sections of the country and who has produced SUN UP several times before. The action of the play takes place in a North Carolina mountaineer's home during the first World War, and its skillful blending of laughter and tears, suspense, and mountain philosophy account for its long and successful run on Broadway in the period following World War I. The cast of the Bay St. Louis production are as follows: Mrs. Anna Nachman as Widow Cagle; Earl Kirkpatrick as Pap Todd; Pamela Floyd as Emmy Todd; Emile Gex, Jr., as Bud Weeks; Ed Ireland of Pass Christian a Sheriff Weeks; Clay Blair, Jr., as Rufe Cagle; Richard Shadoin as the Preacher; Joe di Benedetto as the Stranger; and Charles Kiefer as Bob. The part of the Widow Cagle has been taken at various times by such actresses as Catherine Cornell, Lu-gille LaVerne and Agnes Moorehead.

Try-outs for the July production "The Mollusc," to be directed by Mrs. Adaline Knoblock, will be held on June 21st, though there will be preliminary try-outs at 7:30 p. m. on June 14th. Those interested in taking part in the July play are urged to attend.

## W. M. U. Meeting

The regular monthly topic for the June W. M. U. was "Living Up to Our Moral Standards" and Mrs. C. C. McDonald was guest speaker.

She discussed the subject from its relation to our Nation's welfare. In commenting on unhealthy conditions which are on the increase, she named crime, delinquency, gambling, divorce and the alcohol problem.

Women everywhere are challenged to be good home-makers, reverent, God-fearing mothers and yet to realize the obligations of Christian citizenship—which takes in broader interests. When children and young people leave the parental door-step, they go into a community and the kind of community is determined by the individual citizens who make it up. In the answer to this question lies the answer to our Nation's survival.

## CHAMBER OF COMMERCE ACTIVITIES

Over sixty members attended the last Chamber of Commerce Meeting in the Gulf Chevrolet Company building Thursday last, a record attendance. Following the regular business discussion interesting speakers were heard. John Watts, Editor and publisher of "Tung World" Magazine who gave the members some interesting high lights on tung oil and its uses as well as its value as a local product. Harry Clark, Industrial Representative of the Mississippi Power Company spoke interestingly on Mississippi Industrial Developments and was very complimentary as to the accomplishments in Hancock County to date.

Down in Waveland, out of the ashes of the old Ortte Theatre which burned down some years ago a large new up to the minute building is nearing completion, this building will be the new home of the H. G. Hill Stores, and according to its manager will be used both as a retail store and wholesale storage and will be one of the finest grocery stores on the Gulf Coast. The new building is being erected by Mr. Ed P. Ortte.

To solve in part the housing shortage a new tourist camp and service station, very modern, is being erected at Ulman Avenue and Dunbar avenue by Mr. W. S. Leonard. This in addition to the new tourist cabins erected by Benigno Brothers on Highway 90 will assist greatly in our housing shortage.

A trip through Clermont Harbor reveals many houses of permanent as well as the summer cottage type are under construction. Several hundred dollars have been spent on pier repairs making this pier very much up to date, also traffic speed signs have been erected and street markings are under construction and will be erected soon according to Mr. Planchard who has charge of this work. Clermont Harbor also boasts three new grocery stores as well as a number of small business ventures being developed.

The boys returned to New Orleans on Thursday morning having made the trip on three large yachts named mostly by the Sea Scouts.

## DO NOT BREAK THE TIES OF FRIENDSHIP

It seems that our neighbors in Louisiana are making a fight to destroy the fishing and oyster industry in Mississippi. A bill has been introduced in the Louisiana Legislature by Representative Chester A. Wooten of Plaquemine Parish, asking for a \$2500.00 annual license on all fishing boats from out of state, plus a \$200.00 annual fee for each out of state crew member.

There has always been close ties of friendship existing between the people of Louisiana and the people of the Mississippi Gulf Coast. As far back as we can remember many of our residents have been Louisianians who have one home on the Coast and another in New Orleans or thereabout. The thoughts and actions of the people of these sections are similar in many instances. They speak the same language. They understand one another.

The Mississippi Coast has always offered the hospitality for which it is noted to its Louisiana neighbors, certainly they would not wish it to be otherwise.

In these days and times we find a world torn asunder by spite and greed. We find selfishness superseding the thought of the welfare of one's neighbor. There is no longer the spirit of helpfulness that once existed in human kind. Some of these thoughts are reflected in the introduction of this bill. Certainly our friends in Louisiana would not want a spirit of retaliation created and to exist that would breed hate between the people of Louisiana and Mississippi, however, when you attempt to interrupt the livelihood of people very little else can be expected.

Think of the number of people from our sister state, who would be affected if Mississippians set about to encourage spite legislation. What good would come of it all. Not a thing but bitterness. It would be far better for such legislation to be forgotten, and for us to realize that the fish and oysters that are in the waters that surround us are God given and that it is not the work of man that placed them there. That they are for the consumption of all people, whether they are caught by Louisianians or Mississippians. That the majority of the Mississippians who make their livelihood fishing in Louisiana waters, sell their catch in the City of New Orleans, so when we get down to rock bottom the people of Louisiana receive much benefit from the efforts of the Mississippians.

We are certain that our Louisiana neighbors would not want to work a hardship on our fishermen, when they realize that we have suffered the total destruction of our fishing grounds in order to relieve them of the dangers of flood waters of the Mississippi River.

Certainly acts of this type should not be repaid with legislation that would be punitive.

Our hope is that the Governor of our sister state and the men who constitute its law making bodies will see to it that this piece of legislation that can only breed hate and prejudice between our people will be cast aside and that the ties of friendship that exist between the people of Louisiana and the people of the Mississippi Gulf Coast will not be broken but that efforts will be made on both sides to cement them in a closer union.

## Security

One may ride a storm, but there come times when the most important part of the ship is its anchor.

One may get by now and then in a financial pinch, but there are times when one's most important possession is a substantial balance in the bank.

When financial sailing is easy, with no storm or calm to cause concern, we may drift with tide or current.

But in a financial squall, a business reverse or a commercial calm there is no security on earth like the anchorage of a little cash in reserve.

Anchor something in your bank and be prepared for the emergencies. They may never come, but there's nothing like that inner comfort of being shipshape and seaworthy.

## Anchors

No one knows who invented the first anchor. Among the seafaring ancients anchors consisted of large stones, or baskets filled with rock, sacks with sand or logs of wood loaded with lead.

They didn't hold. Soon after iron was introduced for anchor construction some clever sailor developed the idea of teeth or "flukes," and they stuck.

In 1813 an English clerk named Pering, in the Plymouth shipping yard, introduced anchors with curved arms, and the development followed.

De don't even know who first sprang the idea of a savings account, but whoever he was he had vision, and very likely had gone through some personal experience in which he had keenly felt the need of a friend.

Come Out and Have a Good Time

When you set out to provide telephone service to rural dwellers over an area of hundreds of thousands of square miles in nine states, you've got a REAL JOB!

No one knows this better than your telephone company, nor is there anyone more eager to see farmers have telephones.

We're hard at the job, using the best equipment and "know-how" that years of Bell System experience and research have been able to devise. Southern Bell trucks and men are becoming a more and more frequent sight on the rural roads of the Southeast.

#### ORTTE THEATRE SUNDAY AND MONDAY "ZIEGFELD FOLLIES"

In Technicolor — Starring Judy Garland, Gene Kelly, Kathryn Grayson, Red Skelton and Many Other Stars

A musical masterpiece, M-G-M's "Ziegfeld Follies of 1946," filmed in Technicolor with an all-star cast, comes to the Ortte Theatre as one of the most superb entertainments of this or any other year, this Sunday and Monday.

Outstandingly produced and directed by Arthur Freed and Vincente Minnelli, the production has everything from "A" to Ziegfeld. "A" in this case, is the agile Fred Astaire, and he is his superb best, singing and dancing with lovely Lucille Bremer, with whom he previously scored in "Yolanda and the Thief."

The pair appear in "This Heart of Mine" and again in the celebrated "Limelight Blues." Judy Garland never has been better than in "An Interview," Kathryn Grayson personifies the "Beauty" number in which she is starred, and Lena Horne sings "Love" the way only she can. The comedy end of the production is handled by Keenan Wynn, in an hilarious sketch called "Number Please"; Victor Moore and Edward Arnold, in "Pay the Two Dollars"; Fanny Brice, Hume Cronyn and William Frawley in "A Sweepstakes Ticket," and Red Skelton in "When Television Comes."

Esther Williams is seen in an exquisite water ballet number that will keep you gasping at its (and the star's) sheer beauty. The grand voices of James Melton and Marion Bell are heard in "Traviata." And Astaire and Gene Kelly do a number, with song and dance, called the "Babbit and the Bromide," which brings together Hollywood's best two male dancers.

Altogether, M-G-M's "Ziegfeld Follies of 1946" is one of the grandest film musicals ever to come out of Hollywood. You'll enjoy it immensely.

#### Best News For Former Servicemen

War Department pamphlet 12-16 contains the best news for former service men to be published recently. Former army men discharged since 12 May 1945 who enlist on or before 30 June 1946, may retain a grade commensurate with their previous training and experience, provided they have one of over 400 critical MOS numbers. The new peacetime army needs specialists in all arms and services and by enlisting in grade under the War Department pamphlet 12-16 your grade will be permanent. Also by enlisting before 30 June an enlistee is guaranteed family allowance for his period of enlistment and benefits under the GI Bill of Rights. This is an excellent opportunity for former servicemen—don't miss it. Some of the critical jobs are:

Automotive Equipment Mechanic, Baker, Bricklayer, Carpenter, Cook, Meat Cutter, Cameraman (Motion Picture), Postal Clerk, Crane Operator, Dental Laboratory Technician, Draftsman, Electrician, Laundry Technician, Machinist, Painter, Military Policeman, Clerk-typist, Motorcyclist, Aircraft Welder, and many more.

This statement was released today by Colonel Malcolm Byrne, Commanding Officer of the Mississippi Military Area. For further information contact your local Recruiting Officer.

### A. & G. THEATRE SUNDAY AND MONDAY "SENTIMENTAL JOURNEY"

Superb Hit, Filled With Unforgettable Appeal

In "Sentimental Journey" which stars John Payne, Maureen O'Hara and William Bendix and features brilliant little Connie Marshall, 20th Century-Fox has brought to the screen a heart-warming story filled with tender emotion and unforgettable appeal. The picture, at the A. & G. Theatre, Sunday and Monday, is indeed, a bright and welcome mark in motion picture entertainment.

The basic theme of the story reveals what happens when a young wife—a glamorous and successful stage star, passionately in love with her husband—adopts a nine-year-old girl add to his happiness. Because of the highly sensitive and imaginative nature of the youngster, the plan doesn't work out, and, instead, precipitates a crisis.

How the dramatic situation is finally resolved is unfolded in one of the most unusual and moving stories ever to come to the screen, highlighted by a climax carrying a tremendous emotional impact that will stay with you for a long time to come.

### Superb Performances

John Payne's portrayal of the young theatrical producer who finds himself unable to reconcile the introduction of a child into his household, is one of the standout performances of the year. He handles the part with great depth of feeling and tremendous effectiveness. In the utterly unusual and challenging role of the wife who pines her hopes for her husband's happiness on a daring plan, Maureen O'Hara emerges as a truly exceptional actress, William Bendix, as usual, is thoroughly entertaining as Payne's pal.

But it is for little Connie Marshall that extra-special garlands must be reserved. In what is by any standards a very difficult role, the wondrously talented youngster has acquired herself in true star fashion, carving for herself a 'sure niche high among the great child actresses of the screen. You'll be seeing a great deal more of Connie from now on.

"Sentimental Journey" is, indeed, a rare and delightful screen treat, a "must-see" on every movie-goer's list.

### Dogs Destroyed

Two huge very destructive dogs were on the loose during the week when they broke into Mrs. Parillo's chicken house and devoured fifteen chickens. They killed Anthony Benigno Jr's pet rabbit and several other pets of the neighborhood, including Mrs. Claude Monti's polly. Mrs. Monti's polly has been her pet for the past twenty years and was close to a human companion. He was loved by the children who called him when on their way to and from school. According to reports, these dogs were no tag and therefore were a menace to the community for their next prey could have been a human being, perhaps a little child. However, Mr. Monti being disturbed by the commotion shot and killed the dogs. It is hoped that all such dogs will soon be rounded up and taken off the streets.
